EDUCATION

Amity University

Bachelor of Technology in Computer Science, AI & ML Specialization

Noida, India

Aug 2023 – Jul 2027

- Relevant Coursework: Data Structures & Algorithms, Artificial Neural Networks, CNNs, RNNs, LSTMs, Computer Vision, Database Management Systems, Operating Systems, Object-Oriented Programming

EXPERIENCE

WINNIIO / LifeAtlas

AI Engineering Intern

Sweden (Remote)

May 2026 – Present

- Lead the voice pipeline track for an AI Superconnector (Boardy-style): built a prototype that voice-interviews users via Retell AI/Twilio, extracts profiles with Claude, and returns ranked matches through a pgvector + Voyage rerank pipeline
- Contributed to the ZeroClaw auth proxy and worked across edge-native AI, Digital Twin, and 3D Gaussian Splatting (3DGS) systems powering spatial intelligence on the LifeAtlas platform

Stakrid Logistics Private Limited

Software Engineer Intern

Noida, India

Jan 2025 – Jan 2026

- Built a last-mile logistics platform with 40+ REST API endpoints (Java, Spring Boot) for real-time order tracking and automated delivery workflows; cut manual processing by 80% and reduced API latency from 800ms to under 200ms via query optimization and connection pooling
- Deployed production infrastructure on GCP with CI/CD pipelines, load balancing, and monitoring; integrated Supabase, payment gateways, and SMS APIs with retry mechanisms

IET Student Chapter, Amity University

Technical Team Member

Noida, India

Mar 2024 – Jun 2025

- Designed and delivered technical workshops on software development, data structures, and emerging technologies for 100+ students

PROJECTS

Chakra47: Autonomous OS for Physical AI | Python, YOLOv8, LangGraph, Qwen 70B, Claude API May 2026 – Present

- Designing and building a four-layer autonomous OS for physical AI: multi-agent swarm coordination (LangGraph + open-sourced AgenticSwarm framework), world-model long-term memory and state management, neuro-symbolic governance to eliminate hallucination-driven decisions, and hybrid reasoning (Qwen 70B offline + Claude online)
- Open-sourced Chakra47-AgenticSwarm, a multi-agent swarm coordination framework; working proof of concept live on GitHub with active developer traction

Symbiote-X: Verifiable AI Architecture for Autonomous Systems | Python, YOLOv8, LangGraph Oct 2025 – Present

- Designed a neuro-symbolic governance architecture separating neural perception from symbolic reasoning to eliminate hallucination-driven decisions in drones and rovers
- Prototype integrates YOLOv8 edge inference, Open Policy Agent rule validation, SHA-256 cryptographic audit trail, and LangGraph multi-agent orchestration

Military Deployment Decision System | Python, CNN, Claude API, Rules Engine

Feb 2026

- Built a tactical AI analysis system with CNN-based threat detection, Claude Sonnet reasoning, and a hard-coded Rules of Engagement validation layer to prevent unsafe deployment recommendations
- Presented at AI Impact Summit 2026 (Government of India); received validation from defense tech stakeholders

Real-Time Posture Analysis System | Python, OpenCV, MediaPipe, CNNs

Jan 2026

- Multi-person pose estimation pipeline running at 25+ FPS on CPU via model quantization and frame-skip strategies; rule-based anomaly detection over pose keypoints for ergonomic risk flagging

TECHNICAL SKILLS

Languages: Python, Java, SQL, Bash

DSA: Arrays, Linked Lists, Trees, Graphs, Dynamic Programming, Recursion, Sorting, Sliding Window, Two Pointers

AI/ML: Deep Learning, Computer Vision, CNNs, RNNs, LSTMs, Neuro-Symbolic AI, TensorFlow, PyTorch, YOLOv8, OpenCV, MediaPipe

Backend: Spring Boot, REST API Design, JDBC, Spring Data JPA, LangGraph, LangChain

Cloud & DevOps: Google Cloud Platform, Docker, CI/CD, Supabase, Firebase

Concepts: System Architecture, OOP, Design Patterns, Database Design, Distributed Systems

CERTIFICATIONS

NCA-AIIO: AI Infrastructure & Operations Associate | NVIDIA Bootcamp

In Progress

Machine Learning Specialization | Stanford Online (Coursera)

Java Spring Framework 6 with Spring Boot 3 | Udemy

Build and Secure Networks in Google Cloud | Google Cloud Skills Boost
